ACADEMIC DETAILS

Examination	Institute	Year	CPI/%
Computer Science and Engineering	IIT Kanpur	2015-present	9.0
Class XII	Delhi Public School, Bhopal	2015	93.8
Class X	Delhi Public School, Bhopal	2013	10.0

Relevant Courses:

Computational Cognitive Science	Stochastic Processes	Discrete Mathematics
Bayesian Machine Learning	Introduction to Machine learning	Data Structures and Algorithms
Learning Theory	Probability and Statistics	Theory of Computation

HONORS AND AWARDS

Fellowships	National Talent Search Examination (**NTSE**), 2013	Government of India
	KVPY scholar, 2014	Government of India
Awards	**Academic Excellence Award**, 2015-2016	IIT Kanpur
	All-India Rank **192** amongst 1.5 million students	IIT-JEE, 2015
	Scholarship (Complete fee-waiver) 2013	DPS Bhopal

FIELDS OF INTEREST

- Neuroscience, Cognitive Sciences , Meta-Learning and psychology
- Augmented reality, 3D computer vision , Analysis of learning algorithms, Probabilistic modelling

WORK EXPERIENCE

- **Visiting Research Scholar** (National University Singapore)
  (Guide: Prof. Tat Seng Chua, May'18 - July'18)
  - **Objective** : 3D scene manipulation for Augmented Reality Systems
  - Proposed an end-to-end architecture to **reconstruct 3D model** and extract the **corresponding pose** from canonical viewpoint
  - Our Neural Net module predicts poses **(6 DoF)** in the continuous domain without needing **PnP** based solvers and hence can be plugged into any architecture
  - Results **better than SOTA** methods using PnP
  - Also implemented texture mapping from image to corresponding aligned 3D model
- **Software Lead** (New York Office, IIT Kanpur)
  (Guide: Prof. Manindra Agarwal, May'16 - May'18)
  - **Objective** : Industrial grade development of ML backend and android application for NYO
  - **ML systems**: Collaborative Filtering for **Recommendation engine**; document clustering and ranking for **query-search**
  - **Android app**: REST APIs, SSE notifications, app-caching, Continuous integration with Jenkins, **data and property binding** and app designing
  - Lead a team of 12 people at NYO.

MAJOR PROJECTS

- **Zero-Shot Learning Framework** (Under Graduate Project)
  (Guide: Prof. Piyush Rai, Jan'18 - present)
  - Implemented **hubness reduction** and **domain adaptation** techniques extending the framework published in ECML paper | *link*
  - Reformulated the Bayesian model to incorporate neural networks for **simultaneous feature learning** and **clustering** achieving performance higher than the **current SOTA**

- Expecting to publish our results in 2019.

- **Adversarial Corruption in deep Neural Networks**
  (Guide: Prof. Purushottam Kar, Jan'18 - April'18)
  - **Objective** : Theoretical analysis for robust learning of deep networks
  - Came up with an algorithm for robustly training a single hidden layer ReLU network.
  - Literature survey included robust regression, robust logistic regression, convergence analysis of two layer network amongst others.

- **Language Understanding and Information Retrieval** (Under Graduate Project)
  (Guide: Prof. Arnab Bhattacharya & Prof. Amay Karkare, July'17 - Dec'17)
  - **Objective** : Creating a word problem solver for elementary maths problems
  - Implemented the model using word2vec, **co-reference resolution**, **syntactic parsing** and **dependency parsing**
  - Involved natural language understanding, **world concept graph generation**, quantity association and query evaluation
  - **Github** : github.com/varunkhare1234/word_problem_solver

- **Augmented Reality Navigation** (Programming Club Project)
  (Guide: Self, May'16 - June'16)
  - Created **Android** navigation app using Google Directions API and **unity3d game engine**.
  - Relayed unity graphics on camera feed according to accelerometer and gyroscope readings. GPS and magnetic compass was used to detect roads.
  - Awarded **best club project** | : varunkhare1234/augmented-reality-app

- **Other Projects**
  - Mentored **Depression Therapy Chat bot** as Programming Club project. Students implemented Sentiment Analysis using twitter data-set for user response classification. Classified in **Most innovative student activities** by IITK Newsletter.
  - Android application development for Antaragni 2016 | Mechanical Coin sorter as Technical Arts project.

TECHNICAL SKILLS

Languages	**Proficient**: Kotlin,C,C++, Java, Matlab/Octave, Bash, python, MySQL, LaTeX **Experienced**:R, Verilog, Assembly, C#, HTML
Softwares	**OS**: ARCH linux, Ubuntu, Windows **Libraries and Softwares**: Tensorflow, Pytorch, Edward, Android Studio, blender, CI Jenkins

POSITION OF RESPONSIBILITY

Coordinator	*Programming Club, IIT Kanpur*	*(May'17-March'18)*
Coordinator	*Google Developers Group*	*(May'16-April'17)*
Manager	*Software Corner, Techkriti 2017 (Annual Tech Fest)*	*(May'16-April'17)*
Student Guide	*Counselling service, IIT Kanpur*	*(June'16-April'17)*
Academic Mentor	*Counselling service, IIT Kanpur*	*(June'16-April'17)*
Senior Web Executive	*Antaragni 2016 (Annual Cult Fest)*	*(May'16-Nov'16)*
Senior Executive	*Entrepreneurship Cell, IIT Kanpur*	*(June'16-April'17)*
